The issue of standard silver dollars from the mints during the week ending August 15 was $300,401. The issue during the corresponding period of last year $293,998.

San Francisco's death rate for the past year, 19.58 per 1,000, is lower than that of thirteen foreign and eleven American cities, and the lowest of any city of its size in the world.

The church of our Lady Immaculate, at Portland, Oregon, the finest edifice of the kind on the Pacific coast, was dedicated Saturday, Archbishop Gross officiating. It is said that the Archbishop's throne in this church is the finest in the United States.

Surgeon General Hamilton, of the Marine hospital, says that there is as yet nothing to alarm the people of the United States in the reports coming by cable of the spread of cholera. He is of the opinion that the danger to this country is mainly from cholera in England or China.

Racine Times: The census as taken in Oshkosh, Eau Claire and La Crosse, was simply a ridiculous farce, without a semblance of honor or honesty in it. The reason of this large increase is due to the fact that the timber wolves are anxious to increase their representation in the next legislature.

The Ida house barn, Sparta, was discovered to be on fire at about 9 o'clock Sunday evening, and so rapidly did the flames spread that in a very short space of time the Ida house, together with the armory of the Sparta Rifles, the Democrat Enterprise printing office, Stimson & Son's saloon, billiard hall and bowling alley, and Ed Reckard's barber shop were on fire. The loss is over $10,000; insurance not ascertained.

The contracts for grading and laying track for the extension of the Wisconsin Central system from Schleisingerville to Chicago are to be let immediately. The specifications require the completion of the line between Schleisingerville and Waukesha by the first of January next, and of the line between Waukesha and Chicago by February 1, 1886. The right of way for the new line has been secured from the state line to Schleisingerville with the exception of a few miles north of Waukesha.

United States Consul General Weller, at Paris, continues to receive telegraphic inquiries from America respecting the probable fate of Frederick A. Gower, the telephonic inventor, who has not been heard from since he made the balloon ascension some weeks ago in an experiment with the aerial ship for military purposes. Nothing has been learned of Mr. Gower, and all hope of his having been picked up at sea by a passing vessel has been abandoned.

The Coal Trade Journal says: "We hear of an advance in rates of anthracite, coupled with a reduction in the output for September. The tonnage for August is evidently not going to show the figures of the proposed allotment, for the reason that the coal is not being moved. Bituminous is quiet without change. The comparative statement of the anthracite production for the week ending August 8, was 607,055 tons, against 845,842 tons last year, and from January 1 to date the production was 16,184,722 tons, as compared with 17,146,667 for the same period in 1884."

The officers of the steamer Alpha, from Bermuda, bring the particulars of a terrible tragedy enacted a few days before the vessels departure. A branch pilot named Pitcher, who was desperately jealous of a girl named Clementina, murdered her by cutting her throat from ear to ear, and before he could be arrested escaped to his schooner, which was anchored a short distance from shore. After reaching the boat he coolly made arrangements, in full view of those on shore, to commit suicide by drowning. He fastened a 100 pound weight to the end of a rope, made a noose on the other end, which he adjusted and tightened about his neck, and, pushing the weight overboard, jumped into the sea.

After long travail, St. Paul and Minneapolis have brought fourth, and the population, according to the state census is: St. Paul, 111,397, and Minneapolis, 129,200. Between 1870 and 1880, a ten year period, the population of St. Paul increased from 20,030 to 41,473, a gain of 21,443, or 107 per cent. In the same time the population of Minneapolis advanced from 13,066 to 46,887, a gain of 33,821, or 259 per cent. In the five year period from 1880 to 1885, covered by the state returns, St. Paul's population has risen from 41,473 to 111,397, a gain of 69,924, or a gain of 168 6 per cent. That of Minneapolis has increased according to this authority from 46,887 to 129,200, a gain of 82,313, or 175.5 per cent. The St. Paul people, naturally jealous of their neighbors, are claiming that the Minneapolis figures are "doctored."

"I would not live alway." No; not if disease is to make my life a daily burden. But it need not, good friend, and will not if you will be wise in time. How many of our loved ones are mouldering in the dust who might have been spared for years. The slight cough was unheeded, the many symptoms of disease that lurked within were slighted and death came. Dr. Pierce's "Golden Medical Discovery" cannot recall the dead though it has snatched numbers from the verge of the grave, and will cure consumption in its earlier stages.

MIRACULOUS ESCAPE.

ALL THE ELEMENTS OF A FRIGHTFUL DISASTER PRESENT,

But Comparatively Few People Hurt—A Villainous Attempt to Slaughter 200 Women and Children—Dynamite on Board a Steamboat.

PHILADELPHIA, Aug. 18.—Just after the steamer S. M. Felton left her dock at 10 o'clock Monday morning, and while she was opposite pier No. 8, south wharves, the passengers and crew were startled by an explosion which shook the boat from stem to stern, and when the smoke cleared away it was found that the entire forward part of the vessel above the water-line had been badly damaged and a number of passengers injured, some of them severely. There were over two-hundred people on the boat—men, women and children—when the explosion occurred. The wrecked upper works took fire and a frightful panic ensued. This was speedily checked by the coolness of a number of men, who drove the women and children aft and prevented many frantic women from leaping overboard. Besides those seriously hurt a large number were almost or quite stunned by the shock. The promptness with which assistance came from all sides allayed the panic and prevented the fire from spreading. It seems marvelous that half the people on board escaped death. Witnesses say that at the moment of the explosion everything became enveloped in darkness and the boat rocked as if in a heavy storm. It was supposed that no one had leaped overboard, but a man who secured a life-preserver came ashore at Walnut street wharf, apparently uninjured.

The list of wounded numbers sixteen, their names being as follows: James Bradley, of Philadelphia, ankle dislocated; J. B. Chester, of Chester, side injured; George Cockaine, of Philadelphia, back and thigh hurt by falling wood work; Samuel Cooper, of Frankford, hurt about the chest and head; George Erwin, deckhand, severely injured in the side; James E. McDonald, a child, of Chester, leg broken; Silas Read, of Philadelphia, slightly injured; George Mitchell, deckhand, of Bridgeton, N. J., right hand severely cut and ankle sprained; John McCusker, passenger, injured about the breast; Edward Spear, of Philadelphia, injured internally—it is thought he will die; John Stevenson, of Camden, N. J., slightly injured; Charles Quinlan, of Philadelphia, badly bruised about body; James Valentine, of Wilmington, Del., engineer of the Felton, cut about head by flying glass; John L. Vantine, of Chester, Pa., complicated dislocation of the ankle; Edward Young, of Wilmington Del., fireman of the Felton, injured about head and face.

The passengers were mostly women taking babies for a fresh-air trip on the river. Their escape is accounted for by the providential fact that but few of them were in the forward part of the steamer. The forward canvas awning had not been set, and the sun shining there made the passengers seek cooler spots in the stern of the boat.

Edward Young, the fireman, says that when the explosion occurred he was carrying only thirty-five pounds of steam to the square inch. Andrew Linker said that he inspected the boiler last May and found it in good condition. The iron was tested. It is stamped 50,000 pounds and broke at 56,000 pounds. The indentation in the head of the boiler, however, shows beyond doubt that the explosive force came from without and not from within.

Capt. Wiley, Mr. Lawrence, Mr. Marshop and Mr. Linker made a careful examination of the wreck for the purpose of ascertaining the cause of the explosion. The investigation established the fact that the explosion was caused by dynamite, which had been placed forward directly in the head of the boiler. While the steamer lay at her wharf the passengers came on board and took chairs on the hurricane deck or aft. The officers and deck hands were busy and no attention was paid to the movements of passengers, several of whom carried baskets, so that a bundle or package might have been carried aboard without attracting attention.

The official report made to H. F. Kennedy, superintendent of the Philadelphia, Wilmington & Baltimore Railroad company, under whose supervision the steamboat is operated, says:

The head of the boiler was indented and cracked about a foot in length. The explosion is believed to have been caused by a cartridge of some kind placed under the head of the boiler maliciously.

There has been a good deal of rivalry between the Felton and other boats running to Wilmington, and a good many believe that the explosion was the result of malice on the part of some one connected with a rival line. The loss to the Felton is about $1,500; she was insured for $50,000.

Italy Waking Up a Little.

WASHINGTON CITY, Aug. 18.—The state department has received from Deputy Consul Woods, at Rome, a translation of an official report relating to the use of American reapers in Italy. The government this year purchased a number of McCormick harvesters, and used them with most satisfactory results during the current season in a number of provinces. In some of the provinces the prefects and representatives of the agricultural and commercial interests, the pupils of the practical schools of agriculture and technical institutes, as well as a large number of landowners, attended the trial and working of these harvesters.

Peoria Whisky All Right Again.

PEORIA, Ills., Aug. 18.—News was received here Monday from Commissioner Miller that the quarantine on Peoria whisky was raised so far as goods shipped after this date and which had been through the hands of the government inspectors was concerned. The inspection will be hastened as fast as possible.

Death of Mrs. William H. English.

INDIANAPOLIS, Ind., Aug. 18.—Mrs. W. E. English, wife of the ex-member of congress from this district, died in this city Monday afternoon of chronic dysentery. Mrs. English was formerly Annie Fox, a well known actress. She has been an invalid for the past two years.

Fifteen People Injured.

LAPEER, Mich., Aug. 18.—The roof of the grand stand of the Lapeer county fair collapsed at noon Monday. Fifteen men were injured. W. H. Wood was the most seriously hurt. Others were severely injured both externally and internally.

THE BOSTON MYSTERY.

TERRIBLE CHARGES AGAINST A HUSBAND.

The Secret of the Charles River Horror Believed To Be Out at Last—Frank Mitchell Charged with the Murder.

BOSTON, Aug. 18.—The investigation of the Charles river mystery reached a point Monday afternoon where Inspector Geraughty felt justified in taking the supposed perpetrator of the murder into custody. Accordingly Frank Mitchell, the Endicott street plumber, whose wife's body, it is believed, was found floating in three parcels in the river and harbor, was arrested and placed in a cell at headquarters. The labors of the police in this case have been most arduous. The river gave up the secret on the 23d and 24th of July. The first thing was to sift out the score of identifications which poured in, and this consumed weeks. The fact that the body when taken from the water was almost beyond recognition necessitated the taking of photographs and of a plaster cast of the face, and the task of identifying the woman was one of almost unparalleled difficulty. Suspicion at once fastened upon the husband. He had quarreled with his wife several times immediately preceding the crime, which the autopsy determined was committed on the 20th or 21st of July. A neighbor saw the woman with a black eye on the 20th. Mitchell, who is a Maltese by birth, is the owner of a shop on the ground floor of the house in which he lives. It is within two minutes' walk of the river. In it are fine saws for cutting lead pipe, such as the surgeons said were used in severing the body. In it, also, are knives similar to those which must have been used in the bloody work. Mitchell submitted with supreme nonchalance to the searching of his house and shop. This has been in progress for ten days. Even the coal in the cellar was removed piece by piece, and the drain-pipe leading from the sink in the back room has been taken up and examined. It is believed that after the woman was strangled the body was laid in this sink and carved to pieces.

A renewed search of the Mitchell house Monday resulted in finding a piece of carpet which exactly matches the carpet in which the second section of the body was found wrapped. Experts examined the two pieces and say they are identical. The carpet is of a pattern not manufactured in fifteen years. Mitchell says of the piece in his house that he picked it up at auction. He denies ever having seen before the piece in which the body was found.

The plaster cast of the murdered woman was hanging in a prominent place in the inspector's office when Mitchell was brought in. He looked at it unmoved, and remarked: "That's not my wife." He takes his arrest very coolly and sticks to his original story that he has not seen his wife since she left his house in a passion on the evening of July 20. Mitchell is about 45 years old, with black hair, eyes, and mustache and a complexion almost as dark as an Indian's. He is five feet four inches tall, and very quick, wiry, and muscular. Without this carpet the case against Mitchell rests purely upon circumstantial evidence, but of the strongest sort. He never spoke of his wife's disappearance until two weeks had lapsed. When the officers first questioned him he indulged in a fit of crying. The children were out of the city when their mother disappeared.

Patrick Flynn, who claims to have been at Mitchell's house on the night in question, is held for examination.

Identifying Maxwell.

ST. LOUIS, Aug. 18.—Maxwell was positively identified Monday by the pool-room keeper of the Southern hotel; also by the trunk dealer of whom he bought the trunk in which the body of his victim was packed, and by the druggist at whose store the chloroform was purchased by Maxwell the day of the murder. Maxwell's coolness seems to desert him now and then, but only for an instant. He sat for a photographer Monday who secured negatives of him in four different attitudes. He has retained Hon. John I. Martin of this city to take charge of the defense. Among his visitors were the mayor and city council, three pastors, one priest and twenty-two women. He says the story telegraphed from San Francisco that he had said Preller was alive, and that the whole thing was a scheme to get the insurance on Preller's life, is a falsehood from beginning to end.

Desperate Fight with Gloves.

BRAIDWOOD, Ills., Aug. 18.—A desperate fight of 149 rounds was fought near this place, Monday morning, by two miners named Patterson and Mulvey. Each of the men weighed about 180 pounds, and fought with five-ounce gloves, London rules, commencing at 5:45 o'clock and lasting two hours and thirty minutes. Between 500 and 600 people witnessed the fight. Patterson was badly punished and completely exhausted, being unable to speak at the end of the 149th round. Mulvey appeared fresh and unhurt. The stakes were $500 a side. About $1,100 changed hands. The deputy sheriff of Will county was on the ground, so the stakes were set just across the line in Kankakee county.

A Texas Pool Arranged.

NEW YORK, Aug. 18.—C. P. Huntington, representing the Southern Pacific system; Jay Gould, the Missouri Pacific; President Seeley, of the Gulf, Colorado & Santa Fe railroad, and Receiver B. G. Clark, of the Houston & Texas Central, have signed the Texas pooling arrangement and the agreement takes effect on Sept. 1. Mr. Clarke says that rates have already been advanced, and that the pool will make a difference of $5,000,000 a year to the roads.

A Belgian Putting on Airs.

BRUSSELS, Aug. 18.—The Belgian officer in command of the Kharma station of the Congo refuses to recognize the decision of the Berlin African conference that the western banks of the Tanganyka should form the frontier of the Congo state. He has proclaimed himself emperor of the Tanganyka country.

Lighting the Fires of Industry.

POTTSTOWN, Pa., Aug. 18.—The five remaining furnaces in the plate mill of the Pottstown iron company, which have been idle some time, started up Monday. Arrangements are also being made to put the new Universal mill in operation, employing a large number of additional men.

The Yield of Grain.

MILWAUKEE, Aug. 18.—The reports from Dakota from along the lines of the Chicago, Milwaukee & St. Paul railway indicate that the estimated yield per acre of the different kinds of grain is as follows: Barley, 30 bushels; rye, 35; oats, 60 to 70; wheat, 23 to 28; flax, 13 to 25.

STEAMSHIP LINES WANTED.

Cause of Our Meager Trade with Our South American Neighbors.

WASHINGTON CITY, Aug. 18.—The commission appointed to visit the Central and South American states in the interest of more intimate international and commercial relations with those countries has submitted a report to the department of state of its work in Uraguay and the Argintone Republic. The report says:

"The share of the United State in the enormous commerce of the River Platte country which includes Paraguay, Uraguay and Argentine Republic, is lamentably insignificant, and less than it was half a century ago. The reason is very apparent. Twenty-one lines of steamships connect these ports with those of Europe, while there is no regular steamship communication whatever with the United States. From forty to sixty steamers arrive at Buenos Ayres every month from Europe and not one from the United States. The flag of our country is never seen in these waters except upon men-of-war and semi-occasionally upon some small sailing vessel which happens to be chartered for some special voyage. An English company sends a steamer to New York when necessary, where it discharges a cargo of hides and reloads with a cargo of merchandise for Europe. The few products of our fields and factories found there are brought sometimes in these chartered vessels, but more frequently come by way of Europe, the merchants with one voice saying that because of the absence of steam communication they can afford to buy in the United States only such articles as cannot be obtained elsewhere."

The commission was well received in Uraguay and a great desire for closer relations expressed by the president, who agreed without question to every proposition made, except that for a reciprocity treaty, unless congress would consent to the removal of the duty on wool, that being Uraguay's chief product. The Uraguayans were enthusiastically for the common coin and an international congress.

The commission met with a very cordial reception in the Argentine Republic. The president ardently desires closer commercial relations with the United States, and looks to this country to lead in the matter, when the Argentine Republic would do its share in the work.

Decadence of the Irish League in America

NEW YORK, Aug. 18.—The Daily News, which is very influential among the Irish, though not an organ, says: "The Irish parliamentary party is counting on receiving some material assistance from the Irish National league in this country. The prospect, however, is said by men most prominent in the councils of the latter body to be very slim. The Irish National league in this country is now virtually dead, and in the city of New York, where it was formerly so strong, there is only a bare remnant of it left. The decadence of the organization has been produced by the apathy of men who have become distrustful of the leaders. Whether rightly or wrongly, the belief has gained ground that the organization was to some extent used for American political purposes, and that is why it has an existence merely on paper to-day."

The News then cites the manifesto issued last year by Patrick Egan, president of the league, calling on Irishmen to vote the Republican ticket, and adds: "This disrupted the league, driving all men of independent opinions out of the organization."

Tired of the Demand for Places.

WASHINGTON CITY, Aug. 18.—Commissioner of Patents Montgomery has been interviewed about the pressure for places in his office, and is evidently getting tired of it. He is reported in The Star as saying: "You may say that people who are in search of employment need not come to Washington. The pressure for places is very great, and every appointment that I make seemed to be absolutely forced upon me. Then when I make a change, for instance, turning out one Democrat to put in another, I am occupied from one to three days afterward in explaining why I have made the change. I remember that I recently told the secretary in speaking of a recommendation that I had just submitted to him for a change in some office, that I had been forced inch by inch to consent to make any appointment at all. The secretary remarked: "You should have made your fight on the first inch."

Carnarvon Coldly Received.

DUBLIN, Aug. 18.—Earl Carnarvon, the lord lieutenant of Ireland, arrived at Galway Monday. Large crowds assembled at the wharf and in the adjacent streets to get a glimpse of Ireland's new ruler. He was rather coldly received, his appearance failing to elicit the least enthusiasm. The various trades unions presented him with addresses. After visiting a few places of interest, his lordship reimbarked on the man-of-war Valorous for Limerick.

LONDON, Aug. 18.—The Standard says the result of Earl Carnarvon's visit to Ireland has justified its motive. The experience was encouraging, but Earl Carnarvon owes this fact to the success of Earl Spencer's rule.

Don't Think They Were Well-Treated.

NEW YORK, Aug. 18.—A Washington dispatch published here stated that the transfer of silver coin from New Orleans to Washington would result in a lawsuit by the Adams Express company, the authorized agents of the government for the transportation of public moneys and securities. Manager John Hoey said to the United Press reporter Monday: "There wont be any lawsuit, but we don't think we have been treated right. We have a contract for carrying all the public moneys and securities, and thus far have carried them without the loss of a dollar to the government."

Killed the Wrong Man.

SPRINGFIELD, Tenn., Aug. 18.—William Cox shot and mortally wounded Henry Fletcher, Jr., at 12 o'clock Monday. Cox is a crank, and a crowd of young men had been teasing him. He swore he would kill some of them and went home and got a pistol. On his return he met Tom Volner and shot at him, but hit Fletcher who was sitting in a chair at the time reading a paper, and who had not troubled Cox. Cox was arrested and taken to Nashville and placed in jail.

Opening for a Gotham Sensation.

ROME, Aug. 18.—A society for the exportation and sale of young Italian girls for immoral purposes has been discovered here, with branches at Naples and Spoleto. Letters from residents of New York, engaging girls, were found. It seems that the girls were bought at a very cheap rate from relatives, or guardians, and sold to the American customers at from 1,000 to 2,000 francs each. They were mostly procured in southern Italy. Ten arrests have been made.

KNIGHTS OF LABOR

ENTER THE LISTS AGAINST THE KNIGHTS OF CAPITAL.

A Strike Ordered at All Points in the Wabash System—Cause of the Trouble and Probability of a Big Contest.

ST. LOUIS, Aug. 18.—The trouble between the Wabash railroad and the Knights of Labor has come to a head and promises to result in one of the most extensive contests between a railroad and its employes that has been seen in the west. Four members of the executive committee of the order named have been in the city for several days endeavoring to obtain a conference with A. A. Talmage, general manager of the Wabash, on the subject of the difficulties existing between them. The grievance, as far as can be learned, is the systematic discharge of employes known to belong to the Knights of Labor. General Manager Talmage has been out of the city, so that the committee was unable to obtain a conference with him. In response to a telegram regarding the matter, however, Mr. Talmage replied that he saw no reason for a conference with the committee. He was not aware that any dissatisfaction existed among the employes of the road, and consequently he declined to meet the committee. The latter is of opinion that the company's action is directed against the Knights of Labor, and the executive board of the order Monday issued the following:

The general executive board has endeavored to confer with A. A. Talmage, manager of the Wabash railway, who has refused to meet them, on the plea that he could see no reason why such conference was needed. Yet the board believes that the company is striking a blow at the Knights of Labor. Now, therefore, the general executive board commands all Knights of Labor of the Wabash system, at all points, to quit work on Tuesday, Aug. 18, at 12 o'clock noon, and remain out until further orders from the general executive board.

The above document is signed by Frederick Turner, secretary and treasurer of the board. This order includes the entire southwest system.

The national executive board of the Knights of Labor of the United States, composed of A. Buchanan, Denver, Colo., chairman; S. T. Turner, Philadelphia; J. W. Hays, New Brunswick, N. J., and W. H. Bailey, Shawnee, Ohio, have been in the city for several days past in consultation with Messrs. I. J. Russell, Decatur, Ills.; E. T. McKion, St. Louis; Jerry Shaw, Moberly; Walter Jones and E. A. Schreiber, Springfield, Ills., and John Slater, Fort Wayne, Ind., a committee representing the locked-out Knights of Labor on the Wabash road. Acting in conjunction with these committees are the following gentlemen representing the Knights of Labor employed on the Gould southwest system: E. A. Hall, Marshall, Tex.; R. W. Drow, Sedalia, Mo.; A. B. Branham, Parsons, Kan.; T. F. Marshall, Palestine, Tex.; J. M. Dennis, Channels, Mo., and M. D. Mahoney, DeSoto, Mo.

The trouble originated in the strike of last spring. The Missouri Pacific receded from its position and gave the strikers what they asked. The Wabash was less fortunate with its men, and insisted on punishing every man who tried to intimidate others from working. Finally the men, or part of them, returned to work, but ever since April more or less trouble has been experienced at Moberly, Springfield, Fort Wayne and elsewhere. The Wabash had contracts with the Missouri Car and Foundry company to run its shops and do the company's repairing, and when the trouble came on the repair work was sent to other points than Moberly. This, of course, left a good many hands idle, and nothing like harmony has prevailed. The agreement was that no one should be discharged for taking part in the strike. The men claim this has not been lived up to.

SPRINGFIELD, Ills., Aug. 18.—The Wabash shop employes belonging to the Knights of Labor were Monday notified by the grand secretary of their order to leave the shops at 3 o'clock p. m. on the 18th. This order will effect but few of the brakemen and other employes on the track, as the membership is mostly confined to shopmen. Very few now employed in the shops here belong to the knights. As the Wabash road is in the hands of the United States court, very little trouble is apprehended. There are hundreds of men ready to take the places of the strikers. The members of the knights residing here are very reticent concerning the movement, and nothing definite can be elicited from them. They inveigh bitterly against the newspapers as well as against railroads.

CHICAGO, Aug. 18.—Mr. Griffith, a prominent local member of the Knights of Labor, said Monday evening that no orders had been received here for all the members employed on the Wabash road to strike. He thought that if any orders declaring a strike on the whole system had been given they would have been sent here.

Beautifying Grant's Resting Place.

NEW YORK, Aug. 18.—At a meeting of the board of park commissioners Monday definite plans were adopted for completing the work on the temporary vault in which the body of Gen. Grant lies, and for laying out walks and otherwise improving the part of Riverside park in the neighborhood of the tomb. An area of four or five acres adjacent to the tomb will be sown with wheat. This is the best way of preparing new ground for turf. Early next spring, grass seed will be sown. On the sloping ground at the rear of the vault, trailing or running vines will be planted and flower beds will be laid out and trees planted at the most suitable spots.

The Special Letter Delivery.

WASHINGTON CITY, Aug. 18.—A few days ago the American District Telegraph company, of Philadelphia, submitted a proposition to the postoffice department to perform the special delivery service which goes into effect on Oct. 1. Acting Postmaster General Stevenson declined to entertain the proposition.

The civil service commission has not, as yet, taken any steps with regard to a competitive examination of the postal messengers who are, under the new law recently gone into effect, to be selected in the various cities for the delivery of the special letter service.

Worried Himself Into Suicide.

WASHINGTON CITY, Aug. 18.—Walter Morgan, aged 20, employed as telegraph operator and station agent at Hyattsville, on the Baltimore & Ohio railroad, six miles from here, committed suicide Monday afternoon by shooting himself. Morgan, it is understood, has worried himself over his duties to such an extent that in a fit of despondency he took his life.

Wherever Malaria Exists,

The bilious are its certain prey. In intermittent and remittent fever, dumb ague and ague cake, the liver is always seriously affected, and the blood contaminated with bile. One of the chief reasons why Hostetter's Stomach Bitters is such a sure defense against chills and fever and every form of malarial disease, is that it does away with liability to the disease, by reforming irregularity of the biliary organ in advance of the arrival of the season when the disease is prevalent. There is no finer fortifying preparative for those about visiting or emigrating to a locality where the miasma-taint exists. There is no certain immunity from disease in an endemic or epidemic form, to be secured by the use of the average tonics and anti-spasmodics. But where quinine fails the Bitters succeed both in preventing and curing. Moreover it removes every vestige of dyspepsia, and overcomes constipation, rheumatism, inactivity of the kidneys and bladder, and tranquillizes and strengthens the nervous system.

THE HAVOC OF A SPARK.

Peculiar and Deadly Accident in New Orleans—Four Victims.

NEW ORLEANS, Aug. 18.—While Mr Emile Ledbett, residing on Little Coillton, was engaged in moulding balls for his gun, preparatory to joining a number of his friends in target-shooting, he asked his wife to fill his powder-horn for him. She was some ten or twelve feet from the fire place, where a few coals were smouldering. The task was but half completed when a gust of wind suddenly blowing through the open door, sent a spark straight at the explosive, which igniting, a terrific explosion followed. The roof of the dwelling was torn off, three children were instantly killed; the mother received such injuries that before many hours she was dead, while the husband and father and two children were badly wounded. The noise of the explosion brought a number of neighbors to the scene, where the bruised and blackened bodies of the whole family told the story of fearful havoc brought by a single spark.

NAILING A CAMPAIGN LIE.

Judge Thurman Is Only Anxious to Spike It Thoroughly.

COLUMBUS, Ohio, Aug. 18.—A dispatch from Cincinnati stating that Judge Thurman had written or telegraphed a gentleman there that he would accept a nomination for governor, if offered, was received here, Monday, and to see what truth there was in it a reporter called on Judge Thurman, Monday morning, in his elegant new residence, 427 East Rich street. Hon. John G. Thompson was in consultation with the senator.

"Judge, it is current that you have telegraphed a gentleman in Cincinnati that you would accept the Democratic nomination for governor. Is there any truth in it?"

"I wish you would write the dispatch here, and I will make it strong enough to stop this nonsense," the judge said somewhat testily.

"I am ready, judge, for your dictation."

"Then commence: I have not said or written to any person that I would accept a gubernatorial nomination, nor would I accept it. I do not undervalue the office. To be governor of Ohio is a distinction that would honor any man; but I want no office whatever."

Thompson said: "That is a good dispatch, and covers the case, but I would suggest that the words, 'nor would I accept it' are superfluous."

Judge Thurman—I want that in. I want to put a nail in those idle reports. I have said for two years to all my friends that I wanted no office and I would not accept the gubernatorial nomination, even if it were tendered me unanimously. Do you think the language can be made any stronger?

"I do not see how you could make it more emphatic," said the reporter.

Judge Thurman—That is what I want to do—to make it in such a way that no person can read between the lines that I would accept.

The Civil Service Snarl in New York.

NEW YORK, Aug. 18.—The chairman of the civil service examining board of the custom house is now left alone. Prior to Monday there had been two resignations out of the four members of the board. Monday Mr. Cyrus A. Stevens sent in his resignation, leaving only Mr. Comstock, the chairman. Mr. Stevens is one of the assistant appraisers, and rumor has it that Appraiser McMullen intimated that it would be well for him if he would resign from the board. This is denied by Mr. Stevens. It is certain, however, that President Cleveland or Secretary Manning will have to fill the places of three out of four in the board of civil service examiners attached to the custom house.

Collector Hedden has gone on a vacation and left the office in charge of Deputy Collector Berry. Surveyor Beattie was also absent from his office, but it is rumored that he has had a very strong hand in causing the breaking up of the civil service board, in the hope that the new appointees will be more easily handled than those who have retired from the positions.

Cancellation of Pre-Emption Entries.

WASHINGTON CITY, Aug. 18.—The general land office has received information that Judge Dealy, of the Oregon circuit court, has decided that pre-emption entries can only be cancelled by proceedings in the courts. It has been the practice of the land office to cancel pre-emption entries upon sufficient proof of non-compliance with the law or want of good faith on the part of the pre-emptor. Acting Commissioner Walker has officially informed his informant that the practice and views of the law followed and entertained in the general land office will not be changed before the supreme court of the United States shall have had an opportunity of passing upon the points raised by Judge Dealy.

A Theatrical Company Incognito.

NEW YORK, Aug. 18.—D'Oyly Carte, Gilbert & Sullivan's manager arrived here Monday by the Auronia, under an assumed name. He brings with him a full company, and will produce Sullivan's comic opera "The Mikado" at the Fifth avenue theatre as soon as possible. His arrival was a genuine surprise to the theatrical managers. The company all left London secretly and on short notice. All traveled under assumed names. Mr. Carte said he expected to obtain exclusive right for producing The Mikado" in America.

The Cholera.

MADRID, Aug. 18.—There were twenty-four new cases of cholera in this city Monday and fourteen deaths. There were forty-six new cases in the province and sixteen deaths.

MARSEILLES, Aug. 18.—There were fifty-two new cases of cholera and twenty-four deaths in this city Monday.

There were 4,605 new cases and 1,550 deaths in the whole of Spain Sunday.

WASHINGTON CITY, Aug. 18.—Surgeon General Hamil has says he has no fear that cholera will reach this country this year.

The Illinois Grant Monument.

SPRINGFIELD, Ills., Aug. 18.—Ex-Governor Palmer, chairman of the committee appointed by the Grant monument association, has addressed a memorial to the citizens of Illinois requesting contributions of funds to the Illinois monument to be erected to the memory of Gen. Grant at Springfield.

Base Ball.

CHICAGO, Aug. 18.—Base ball games Monday resulted as follows: At New York—Philadelphia 2, New York 4; at Brooklyn—Baltimore 3, Brooklyn 4; at Columbus—St. Louis 5; Pittsburg 4—exhibition game; at Philadelphia—Athletic 3, Metropolitans 0.

WOMAN AND HOME.

LADIES WHO "CRIB" IDEAS IN DRESS AND ORNAMENTS FROM OTHERS.

Home Decorative Notes—The Sloven—Victims of Shyness—Airing the Cellar—Children's Outing—Hints for the Kitchen—Paragraphs.

[London Queen.]

Not only purses, plus character, pass from the lawful possession of the original owner into the predatory hands of the intervening thief. Ideas go by the same way; and here the marauders are on fertile ground.

Well up in the scale of petty larceny stand those who steal ideas in dress and personal condition. If Ada becomes limp, baggy, and ascetic, Ida also becomes limper, baggier, and more ascetic, for your imitators generally go beyond their model. If Mary comes out with her hair cut short, Maria crops hers to the semblance of a scrubbing-brush if her locks are of the straight kind, or like so much tight-ringed Astrakhan wool if it is of the curly sort.

If Lydia, struck with the mannish fever, discards lace and trimming and every sort of feminine frivolity, Julia follows suit, wears shirt collars, waistcoats and coatees, tailor-made; buys a cane and a set of horse shoe studs; wears a scarf and a scarf-pin; and, till you see her petticoats, is as much like a young man as her brother, the beardless cornet. If, on the other hand, Lydia comes out of this craze and falls into the net of fashion pure and simple, Julia is content with nothing under Worth, and out does the fashion-plates in the extravagance of her tournure, the length of her train, the "fall" in her back, and the smallness of her waist. The sole spark of originality possessed by these fair thieves is the extravagance to which they push their imitations and the percentage heaped on to the capital started with.

Mr. Jones has a pretty fancy for the decoration of her dining-table. She has spent many anxious hours in elaborating and perfecting her ideas, which has such merit as resides in absolute originality. She completes her scheme of color and her map of form, and she makes a dinner, and bids her friends to come and admire. Among them is Mrs. Brown, who has never gone beyond the old-fashioned epergne of her youth, wherein she mixes artificial flowers with a few real ones and thinks the device will pass unnoticed. She does not remember, however, that lilac and roses, narcissus and dahlias, primroses and peonies, scarcely come into the same natural posy, and that when she lets the wire show through the glass she gives the keen-eyed cause for laughter.

Being then this unidead person in the matter of table decorations, she dines with Mrs. Jones and sees the new arrangement. The next week she reproduces the whole thing; but because she has not really seized the idea, only skimmed it, she leaves out the finer touches, the more subtle combinations, which made the whole an artistic success and so produces a botch and not a masterpiece—a caricature and not a copy. Then Mrs. Jones, who is not generous enough to share her ideas on table decoration. for all that she is a good, kind women essentials, first weeps as an angry women in generally does, and then passes off into the flery stage, when indignation burns up her fears and her friendship for Mrs. Brown at one and the same time, and saying; "I will never forgive her," she keeps her word and never does.

The Sloven at Home.
[Good Housekeeping.]

Poverty, ill-temper and slovenliness, each in their own peculiar province, have done, and are each continuing to do, much in the way of making unpleasant, uncomfortable and unhappy homes. The first is, generally speaking, unavoidable, the second often the outcome of ill health, disappointment or misfortune, but the latter is without reason or excuse.

More husbands are driven from their own firesides, more sons given cause to seek questionable associates and unworthy associations, and more daughters captivated by the fascinations of the street, from being reared in untidy homes, where slovenliness rules the hour and method, order and neatness rarely ever enter, than from any other cause known.

The public places of amusement. the saloons and the bagnios, all understand and act promptly upon the suggestions of their understandings, as to what attractions hold captive the eye and the ear, and through them the hearts of the young—and as for that, for the old and middle-aged as well. These are made bright and cheery and as near as may be without any objectionable features to unpleasantly affect the outward or inward senses. Is it a marvel, then, that so many are led astray by such pleasant and attractive surroundings? When neatness, order, system and pleasant belongings are introduced into the family circle with as much effect and persistence as they are in public places, our homes will hold their own more closely than they now do, and with lasting benefit to every one into whose province these elements of progressive refinement may find their way.

To emphasize more fully the solemn fact. we say—and "more in sorrow than in anger" —that one of the most repulsive features in home life is slovenliness in dress. Where that is found, general untidiness is almost sure to rule the hour, and affection wilts and goes limping out of the door while love flies out of the window. The housewife and housemaid who go about in untidy array, with unkempt hair or in soiled garments, almost invariably bring desolation to the hearthstones where they hold sway. The home whose mistress "slicks up" when company comes, and only then, is an unfortunate one. They who do this forget that the pleasure and happiness of their own family are of more vital importance than all the world beside, and turn a deaf ear to one of the most instructive teachers that points to the higher life of the household. They forget that the unholy rivals for the affection and reverence of their husbands and sons—and daughters, even—

know that won the value of tidiness of apparel, or neatness of person, of order in surroundings, and they make these elements prominent and primary in all their carefully devised plans and purposes.

Home Decorative Notes.
[Real Estate Record.]

Birch bark may be satisfactorily used for menus.

Cretonne hung over the walls makes a very delightful decoration.

Metallic lions rampant with distended jaws are receptacles for waste paper.

Cords or wires attached to pictures should be suspended from beneath the frieze.

Let it be remembered that attractive homes make less attractive the seductions of the outside world.

Straw matting may be cleaned with a large coarse cloth dipped in salt and water, and then wiped dry.

The long swinging glasses are coming into favor, and bureaus, dressing-tables and walls are amply supplied with mirrors.

Among the novelties in table decoration that are of both use and beauty are little white china pans in which to poach eggs; they are furnished with handles, and the egg is brought to the table on and eaten from these dishes.

A decorative receptacle to contain the less sightly flower-pot of earthenware is a fluted gilt cylinder on a circular tray.

Rust upon steel may may be removed by covering the rusted parts with oil or fat, letting it remain some time, and then wipe off with a cloth.

A painted arras in a large hall is particularly effective. It should be fastened with hooks and rings to a rod that should run below the frieze.

Too much care cannot be exercised in choosing carpets with good wearing colors. The Kidderminster rugs, with their close-set threads, are very serviceable, and are largely used for summer seashore cottages.

A pretty fantasy is a square window of stained glass set in the wall and filling the place of a picture. For an east window a lovely design would be of morning-glories or brilliant hollyhocks marshaled into line.

A narrow shelf placed over a doorway, and painted to correspond with the woodwork of the room, is a pleasing addition. A few pieces of pottery, good in color and shape, grouped upon this shelf heightens the effect.

Victims of Shyness.
[Chicago Tribune.]

No day passes wherein shy persons do not make for themselves needless distress—wherein they do not plant stupidity to reap shamefacedness and regret. What tortures they suffer when, at night in the solitude of their own thoughts, they go back on the deeds of the day, and calmness produces clearness! When they remember their ungainly gesture as they handed the cup, or took the chair, or shook hands across the table, or came stumbling into the room—when their ears re-echo with those unlucky words, that horrible allusion to the well-known skeleton, which came out in a manner unawares and without meaning, or that phrase which was, meant to be complimentary, and was apparently impertinent instead—when they wish they had not done this, and latent that they did not do that, its direct opposite—grieve over the good things they might have said and just missed—groan over the foolish words they blurted out as if they had been stones catapulted by some fiendish power behind them—then what tortures without name or end they undergo for all the follies forced on them to commit by the baleful influence of shyness!

When these poor victims are house-mistresses, and have given dinners or evenings, what sufferings their fevered souls endure both at the time and after! They feel that they are neglecting A, and yet they can not find one word in all the waste of their brains wherewith to begin a conversation. They are conscious that they offended B by opening fire on an unpleasant topic, which was all they could think of to say; that they slighted C and insulted D all from pure nervousness and want of self-possession. When the guest of the evening came in they were not sufficiently cordial; or by very excess of shyness they were too cordial, and heaped where they should have skimmed. When they discovered that they had made a blunder, and introduced as strangers who would be glad to know each other two people who had been friends and now were enemies, they did not glide swiftly over the broken ice, but from pure nervousness stopped and leant hard, widening the fracture and causing a bigger hole all round.

The Children's Outing.
[Philadelphia Ledger.]

Kindness to children should not be made obtrusive or burdensome. The child on its holiday, or in its every-day half hour or whole hour of reaction, desires nothing more than to be left free to pursue its own pleasure in its own way. In the following of its own devices (innocent, of course,) and the attempt to carry out its own plans childhood is happy. Just so much interference as will save children from doing themselves harm is necessary. Anything further than that mars their sport. If they are attempting little impossibilities in their play, let them alone to find out themselves. And if they are making a long circuit to effect what may be accomplished by a short cut, let them try the excursion uninterrupted.

The "superior wisdom" of fathers and uncles takes a considerable quantum of the poetry out of children's play. The man in the play who shouts "Alone I did it;" expresses what every little follow of either sex desires to be able to cry. And if "Alone I did it" cannot be said by them, "Alone I did not do it" is nearly as satisfactory. They are satisfied with their own experiments, and do not desire that their kind advisers should deprive them of the unalloyed pleasure of self-assertion.

Airing the Cellar.
[American Agriculturist.]

When a cool cellar is aired on a warm day, the entering air being in motion, appears cool; but as it fills the cellar, the cooler air with which it becomes mixed chills it, the moisture is condensed, and dew is deposited on the cold walls, and may often be seen running down them in streams. Then the cellar is damp, and soon becomes moldy. To avoid this the windows should only be opened at night, and late—the last thing before retiring. There is no need to fear that the night air is unhealthful—it is as pure as the air of midday, and is really drier. The cool air enters the apartment during the night, and circulates through it. The windows should be closed before sunrise in the morning, and kept closed and shaded through the day.

If the air of a cellar is damp, it may be thoroughly dried by placing in it a peck of fresh lime in an open box. A peck of lime will absorb about seven pounds, or more than three quarts of water, and in this way a collar or milk-room may soon be dried, even in the hottest weather. A bushel of lime absorbs twenty-seven pounds of water, and still appears as dry powder.

Commonplace Things.
[Rev. T. A. Green.]

Young people fall in love and talk of weddings and tours, with little thought of such commonplace things as boiled potatoes or carpet-sweepers. To imagine that any condition lower down than moonlight and stars would ever touch or make their happiness is a sharp discord to their melody of love. They would be happy anywhere or on anything so he had her and she had him. And yet a badly cooked dinner or untidy room in a little while may turn a paradise into purgatory. We are not fit to live on moonshine nor to grow strong on poetry.

Not that I would ridicule the beautiful fancies or the day dreams of young affection or throw one shadow over the forecasting love, but we are very earthly creatures, after all our romance and ideality. And on the very material blessings of material comfort and satisfaction rests the possibility of the continuity of those higher ranges of being.

What "Old Fritz" Said

It was an aphorism of Frederick the Great's, that "Facts are divine things," An undisputed fact is that Dr. Pierce's Golden Medical Discovery is the most powerful liver vitalizer extant, and by its characteristic and searching action will cure dyspepsia, constipation, dropsy, kidney disease, sick headache, and other maladies which, popular opinion to the contrary notwithstanding, are directly traceable to a diseased condition of the liver, by which its work as purifier of the blood ir made incomplete. All druggists.

An Answer Wanted.

Can any one bring us a case of kidney or liver complaint that Electric bitters will not speedily cure? We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, weak back, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and not directly on the diseased parts. Every bottle guaranteed. For sale at 50c. bottle by F. Sherer and Co.

How to Cook Corn.
[Household.]

Now isn't it strange that so many people do not know how to cook corn? They cook it too long. It should be popped in a pot of boiling water—no salt—and left there for ten minutes—be sure the water is in a great rage—then taken out and wrapped in a large napkin until you are ready to eat it. Boiled longer than ten minutes, the milk hardens in the kernel, and it is not a tenth part as palatable and its much less digestible.

Woman's Extravagance.
[San Francisco Chronicle.]

This talk about woman's extravagance is only accepted as truth because the male man keeps the ledgers and his wife has nothing but a debit in them. It isn't fair. If a man were to deal honestly and squarely and figure up his own expenses and all he gets for them, the woman would rise up before him a perfect angel of sense in expenditure and make him blush.

Might Have Been Worse.
[Bill Arp.]

Man that is born of one woman and tied to another is of few days and full of trouble. But it might have been worse; a heap worse, for he might have been born a woman and been tied to a man. That is the most perilous condition in all nature.

Women Dentists in Germany.

Women dentists are gaining ground in Germany. They are practicing in many of the great cities; in Hamburg, Strasburg, Cologne, Wiesbaden, and Frankfort-on-the-Main. They are very popular with the children.

More Comfort.

There are many young ladies who have not the means to go to the sea shore who find just as much pleasure and a deal more comfort "camping out" at country farmhouses.

American Women.

It is ascertained that the number of American women exceeds the entire foreign born population of the country (both men and women) in the ratio of three to one.

Peruvian Wine of Iron.

is a certain preventative and cure for Fever and Ague, and persons of sedentary habits, and those troubled with sleeplessness, languor or indisposition to exercise will derive great relief from its use. ECZEMA
And Every Species of Itching and Burning Diseases Positively Cured by Cuticura.

ECZEMA, or Salt Rheum, with its agonizing itching and burning, instantly relieved by a warm bath with Cuticura Soap and a single application of Cuticura, the great Skin Cure. This repeated daily, with two or three doses of Cuticura Resolvent, the New Blood Purifier, to keep the blood cool, the perspiration pure and unirritating, the bowels open, the liver and kidneys active. will speedily cure Eczema, Tetter, Ringworm, Psoriasis, Lichen Pruritus, Scald Head, Dandruff, and every species of itching, Scaly, and Pimply Humors of the Scalp and Skin, when the best physicians and all known remedies fail.

WILL McDONALD, 2542 Dearborn St., Chicago, gratefully acknowledges a cure of Eczema or Salt Rheum on head, neck, face arms and legs for seventeen years: not able to walk except on hands and knees for one year: not able to help himself for eight years; tried hundreds of remedies: doctors pronounced his case hopeless: permanently cured by Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap (the great skin cure) externally.

CHAS. HOUGHTON, Esq., lawyer, 28 State St., Boston, reports a case of Eczema under his observation for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the Cuticura Remedies, leaving a clean and healthy skin.

MR. JOHN THIEL, Wilkesbarre, Pa., writes: "I have suffered from Salt Rheum for over eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of Cuticura and four boxes of Resolvent have entirely cured me of this dreadful disease."

Sold by all druggists. Price: Cuticura, 50 cts.; Resolvent, $1; Soap, 25 cts. Potter Drug and Chemical Co., Boston, Mass.

Robinson informed us this morning that but one case of scarlet fever had been reported to him since the 7th of July, and that it was questionable whether the last one was really scarlet fever. He reports the health of the city very good at the present time, with the above exception there is no contagious disease known in our boarders.

—Among the improvements worthy of mention in the second ward is the new concrete walk which is being built on Wisconsin street, commencing at the corner of Wisconsin and North Second, and running through to Milwaukee street. This walk supplies a much needed improvement to the street and is of especial benefit to St. Mary's church property.

—The Sunday school of the First M. E. church will hold a picnic at Pope's Springs to-morrow. The steamer Enterprise has been chartered for the occasion, and will leave for the springs at 10 o'clock a. m., 11:30 a. m. and 1:30 p. m., touching at the landing on the west side of the river to accomodate those who may congregate at that point. All members and friends of the church and congregation are invited. Members of the Sunday school free; all others 25 cents for the round trip.

—The two cups offered by the Creedmore shooting gallery were last evening awarded to Mr. W. H. Andt and Mr. M. W. Hamblin, the scores standing 14 to 13. The prize now offered is the most valuable one yet shot for, being a handsome silver water service. The set is now on exhibition at F. C. Cook's jewelry store. The contest for this prize will be different from that for the others, as each person will shoot to make the largest possible score out of a possible 240 points.

—The Georgia Minstrels will appear at the opera house on Friday evening of this week. The Philadelphia Evening Bulletin says: "This organization, composed of colored men, gave a well-attended entertainment at Low's opera house, last evening. The company are upon their first tour in New England, and are reported to have had good success. More than the average amount of time was devoted to singing, some of which was admirable. The olio presented the usual variety of specialty acts. The entertainment contains nothing to offend, and will be enjoyed by ladies."

—On Thursday of this week the employes of the John Thoroughgood & Co's cigar box factory will hold their annual picnic. For several years past the gentlemanly proprietors of this extensive establishment have closed their factory, provided transportation, and otherwise assisted their employes in enjoying one day out of doors picnicing. This season the proprietors have chartered the steamer Enterprise, and the picnic will be held up the river. The picnic will be a private one, especially for the employes of the Thoroughgood & Co.'s factory help, numbering about fifty people, together with their invited guests. That they will have a pleasant and happy time, is the wish of all their friends.

—News reached this city yesterday afternoon of the death of Mrs. E. A. Robinson, at her home in Champaign, Illinois, on Sunday. Mr. and Mrs. Robinson resided in this city for several years previous to their removal to Champaign, Mr. Robinson being employed in the shops of the Harris manufacturing company. The remains remains of Mrs. Robinson will reach this city some time to-morrow, and will be taken from the cars direct to Oak Hill cemetery where they will be buried by the side of their infant daughter Addie, who died some years ago. Rev. Dr. M. G. Hodge, of the Baptist church, will conduct the services at the grave. The following gentlemen, neighbors of the deceased while residing in this city, will by request, act as pall-bearers—Messrs. James A. Tice, James Yates, Samuel Griffin, and W. W. Wills.

—The Beloit Free Press:—Burglars broke into Mr. W. T. Hall's house and stole some eatables out of the pantry last night.——Some time last night thieves broke into the kitchen of Dr. H. R. Clark's residence and stole some silver ware, probably $25 worth. Among other things taken was a pound or so of ground coffee. Entrance was gained to the house by forcing open a window.—— The firm of O. E. Merrill & Co. machinists, has been verged into a corporation with $55,000 capital stock, to be known as the O. E. Merrill company, Mr. O. E. Merrill superintendent. The new deal is one of importance to both the old firm and the business interests of the city, as the shop can be run to better advantage, having more capital and a wider field for work.——May Cannon, the seven-year-old daughdaughter of Mr. John Cannon, and grand child of Mr. John Hauser, met with a painful and probably very serious accident this morning. She was climbing on the back of an ice wagon near the brewery and slipped off, and a blunt hook on the wagon caught her in the corner of the right eye, making a dangerous wound. Drs. Johnson and Helm were at once summoned and sewed up the lacerated flesh. There is danger of the child losing the sight of the injured eye.

Funeral of Mrs. L. F. Holloway.

The funeral of the late Mary H., wife of Mr. LeRoy F. Holloway, took place at the family residence, corner of East and North First streets, at 2:30 o'clock this afternoon. The attendance of sympathizing friends of the bereaved family was quite large. The floral offerings were numerous, many being very beautiful, among which a star and wreath of Japanese white lillies and immortales and varieties of other choice flowers, from Mr. and Mrs. Geo. Holloway, of Chicago; a broken wheel and anchor, from Mr. and Mrs. John Griffiths and Mrs. Clint. Wilcox, of this city; a cross of tea roses, from Mrs. R. J. Clemens, of this city, and a profusion of beautiful boquets. Rev. C. B. Wilcox, pastor of Court Street M. E. church, conducted the services, and spoke feelingly of the true and womanly character of the deceased. The song service was beautifully rendered by a quartet consisting of Mrs. J. W. St. John, Miss Fannie Ray, Mr. Clarence L. Clark and Mr. Charles E. Church. At the conclusion of the solemn services the remains were taken to Oak Hill cemetery and tenderly laid at rest, the pall bearers being Messrs. R. J. Clemens, Ed. F. Carpenter, Clint. Wilcox Charles E. Cummings, Wm. Hadden and Adam Senner.

Among those present from abroad were Mr. and Mrs. Stough, Miss Carrie Stough and Mrs. Staig, of Ohio, father, mother and sisters of the deceased; and Rev. Howard Stough, of Lena, Illinois, a brother of the deceased; Colonel Holloway, of Hillsdale, Michigan, father of Mr. Holloway; Mr. and Mrs. Geo. Holloway, of Chicago, brother and sister of Mr. Holloway, and Mrs. and Miss Dayton, of Orfordville, this county.

Circuit Court.

The case of Aldrich against Colwell was yesterday afternoon decided in favor of the plaintiff, the verdict allowing her to collect a note of $600 on the defendant.

The Weather.

At seven o'clock this morning the thermometer indicated 68 degrees above zero, Partly cloudy with south wind. At one o'clock p. m. the register was 85 degrees above zero. Partly cloudy, with southwest wind. For the corresponding hours one year ago the register was 73 and 89 degrees above zero.

Notice.

There will be a special meeting of the First Baptist church society held in the basement of said church on Thursday, August 20th, at 8:45 p. m., for the purpose of hearing the report of the organ committee and to transact any business that may come before said meeting. Dated August 18th, 1885.

C. SEXTON,
Chairman of the Board of Trustees.

Business Men's Meeting.

The meeting of the Business Men' club was well attended last evening, and a degree of interest manifested that spoke well for the future of the organization. The secretary's report showed that seventy-nine names constitute the roll of charter members, the list including many of our substantial business men. The club starts out with a vim and spirit of enterprise that is refreshing and should be an incentive for every wide awake business man in the city to become a member of the organization.

The club room presents a very attractive appearance although all the furniture is not yet in position. A janitor has been secured and arrangements made for using the back room on the same floor for social purposes.

Warehouse and other interests were discussed and the outlook is encouraging for the development of business enterprise in various channels. The business men's association is now an assured reality, and before the close of the present year its membership will number not less than one hundred and fifty. That the move is a wise one and in the right direction was apparent to every man present at the meeting last evening.

House and two good lots in 2d ward for $1,100. C. E. BOWLES.

Attend Archie Reid's closing sale.

TOBACCO MARKETS.

How the Crop is Coming Through, and What the Dealers Are Doing.

JANESVILLE.

The week past has been for the most part a favorable one for tobacco. The heavy wind and rains during the latter part of July, were, however, rather too much for some fields, and many plants are wind-whipped, while in one or two localities considerable rust is found.

Many of the growers are shedding their tobacco now, but it is to be feared that they are not waiting for it to fully ripen. Some fear rust, while many are anxious to get the crop out of danger of hail and wind, and so in many cases they will lack the body and weight which would be secured by thorough ripening. We think that on the whole however, the '85 Wisconsin will have a quality unsurpassed by any in the market.

The '84 crop is coming out of the sweat finely and will be a dangerous rival to Sumatra in many markets.

NEW YORK.

Business was good this week. Those who have adapted their stock to what is wanted by the trade and who, by push and energy, introduce themselves and their goods, are satisfied with the condition of things. Beyond dispute the fact is established now that the country can raise as fine a tobacco as ever grew in Sumatra. To return to the doings in our market during the week there is further to say that prospective large buyers of seed leaf cannot be induced to close transactions. They want to be positive as to the final fermentation of the '84 crop. There is an immense number of packers' samples from out-of town packers in the market; Pennsylvania and Wisconsin packers especially have flooded the market with '84 samples. All this avails nothing. No responsible house is willing to lay in stock by packer's samples, except at such low figures as form an insurance against losses. Consequently the character of the business done, while large in its aggregate, was only of a retail nature, necessitating no further specification.

In Sumatra a heavy business was done. The sales reported run over 300 bales. Nevertheless prices remain unchanged; the most popular figure realized is $1.25. The quotations are from $1.10 to $1.65.

In Havana, things were rather quiet. The sales did not run over 400 bales and no improvement in prices is noticeable.—*United States Tobacco Journal.*

OHIO.

Buyers are still licking the Little Dutch platter and looking for more; but there is very little more to be had, and that little is perched serenely on lofty figures.

There remains now but remnants of Little Dutch and Seedleaf, with the bulk of Zimmer's Spanish, which is about ready to work, and held at 12 to 20c.

Rust is stalking abroad, on the uplands as well as the bottoms. The loss in Little Dutch and Seedleaf will be very severe. Zimmer's Spanish, which matures in two weeks after topping and remains but forty-five days on the field, his signal advantage over every other variety of tobacco and ought to escape rust entirely; but in any event the ground leaves only, which ought to be thrown away, will be touched.

Rains continue frequent.—*Miamisburg Bulletin.*

CONNECTICUT VALLEY.

Very many of the growers have finished topping their tobacco; a few very late crops only remain to top, while many have suckered the first time. Cutting will begin in about ten days from this writing, at least as soon as the 20th inst. So far we have not heard of injury from hail or other source, if we except a high wind on the night of the 4th. Then plants, somewhat young, were blown over. Some few growers went through their fields and straightened it up, others allowed it to come up itself. In the latter case the stalks are somewhat crooked. This does not harm except it is not quite so convenient to handle. In some localities, not reached by the showers that others have had, growers complain of a small growth.

The nights are, or have been, slightly cool, too cool to promote a rapid growth. —*American Cultivator.*

PENNSYLVANIA.

There was considerable inquiry at the packing houses and among the tobacco brokers during the week, but, after all, the volume of business was not very great, reaching, in fact, not over 500 cases. The general tone of the market is one of firmness. As the tobaccos of three and four years ago have found their way into the hands of manufacturers, or else across the Atlantic, and better goods are coming upon the market, it is but natural that a better feeling should prevail, and holders of last year's crop look to making up some of their former losses. The crop of 1884 is now partially in the sampler's hands, and the verdict so far as we have heard it, is all in one direction—that the crop is showing up splendidly—all that the holders could desire. Add to this the many drawbacks the growing crop has encountered all over the country, and we are at no loss to find reasons for better tone of the market. The above shows a slight increase over the sales of last week. For the corresponding week of last year, 300 cases were sold.—*New Era.*

BALDWINSVILLE.

There has been purchased during the past week something over three hundred cases of tobacco in this section, at prices ranging anywhere from 3 to 12½ cents, as near as we can learn. It is exceedingly difficult at these time to get accurate information in reference to the sales. Growers almost invariably tell you, if you ask them, that they received from three to five cents more than they really did. Buyers on the other hand would like to see the prices published the same amount below what they really paid in order to keep the market down. Now between these two extremes it is difficult for us to get the prices paid just as they are. Under such circumstances blame should not attach to us if mistakes are made. If the growers would come to us and give us correctly their sales, no matter how high or how low, it would be much better for all concerned.—*Gazette*

THE EXCURSION.

An Opportunity to Visit One of the Finest Summer Resorts in the Northwest, for a Nominal Price.

Green Lake, Wisconsin, is located twenty-two miles west of Fond du Lac, on the Sheboygan division of the C. & N. W. R. R. The lake is ten miles long, and from two to four miles wide, and is surrounded by picturesque banks covered with foliage, presenting an appearance of rare beauty. It is noted for its clear green water of fathomless depth, and has long been a noted summer resort, and is well worth visiting.

The Order of Railway conductors have secured an excursion train which will leave Janesville Sunday morning, Aug, 23d, at 7 a. m. for this famous resort, the train will arrive at the lake at noon and will leave on the return trip at 7 p. m., arriving in Janesville at midnight. The public are invited to enjoy this excursion. Tickets for the round trip only $1.50. For sale at R. W. King's and Prentice & Evenson's. Secure your tickets early so that ample train accommodation may be provided.

Light and heavy harness, lap robes and horse clothing at Jas. A. Fathers.

CONDITION OF TOBACCO.

A Few Statements by a Veteran Grower.

How the Growing Crop is Prospering.

To the Editor.

JANESVILLE, Wis., Aug. 18th, 1885.— Complying with your request to give my opinion of the prospects of the '85 crop of tobacco, I will say that I cannot speak as encouragingly as some who have given their opinion. During the last week I have driven about one hundred miles in various directions from this city and find but very little that does not show some damage from the heavy rain and high wind varying in extent in different localities and believe also that all the damage as yet is due solely to this cause.

I have yet to see the piece affected by rust proper. Several pieces were being cut, as parties claimed, to save it from rust, when not a particle could be found on the side of the plant not affected by the force of the storm. My opinion is many are cutting too green supposing rust has struck it. As to the amount or proportion of damage I believe it to be equal to one-third of the entire crop, but I do not wish to be understood to speak in any way disparagingly of the quality of such as remains sound seeing no reason why the quality should not be up to the old time standard, as the leaf is thrifty and as yet looks clear and fine; the great danger now is in forcing it into the sheds before it has time to ripen and get the necessary body and gum.

Many of the old growers will break off this damaged tobacco at time of suckering and leave in the field which will, in my opinion, be the proper thing to do. Should it be saved, I cannot see the object as it has no market value.

Yours,
M. H. SOVERHILL.

Emerald Grove.

—Mrs. L. L. Ellis, of Janesville, is visiting her mother, Mrs. Mary Scott.

—J. A. Jones is building an extensive addition to the tobacco shed on the Squires property to accommodate his large crop of tobacco.

—The inaugural dance at the west end on Saturday evening last was a success as to enjoyment if noise is any indication.

—Grain bags equal in weight to "Stark A" at 18c, at Hastings'.

—It is humiliating to record the fact that a quiet rural hamlet like Emerald Grove, with its two churches and peaceable neighborhood should be the scene of such disgraceful proceedings as transpired in the west end of the village on Saturday night and Sunday morning last. Without going into particulars, it is enough to say that the Bacchanalian songs, the drunken brawls and noisy profanity of a large party of men assembled there, as it broke upon the stillness of the early Sabbath morning, made night hideous and drove sleep away from the homes of those who were so unfortunate as to live near the place of disturbance. We are of the opinion, though we may be mistaken, that in any town or village under adequate police regulation, the offending parties would be arrested and the nuisance speedily abated.

—Some wild animal, supposed to be a wild cat, has killed all the lambs and a few old sheep in a flock on Thomas Cuckow's farm. It infests a forty-acre timber tract, and attacks the sheep in open day. It would be well to organize a party of hunters and exterminate the "varmint."

—Mr. and Mrs. Nye, of Kansas, are visiting with Mrs. Nye's parents, Mr. and Mrs. E. Chesebro.

—Rev. R. L. Cheney, of Prairie du Chien, preached last Sabbath in the Congregational church, delivering a very able sermon on the divine authority of the Sabbath. He returned home this week. Mrs. Knapp, instructor of music in the Whitewater Normal school, presided at the organ in the absence of Mr. Loren Cheney, who was not feeling well.

—Mrs. S. J. Cuckow returned last week from Merrill, Wis., where she was visiting her daughter, Mrs. Ruth Northrop.

—After hearing the concert on Saturday evening at Johnstown, and the service of song the following evening, we are of the opinion, that the "Stewart Grant concert company" (formerly Stewart-Wilberforce) is now better organized than ever for entertainment. The troupe is as follows: Mrs. Jennie Robinson Stewart, soprano; Mrs. Katie Green Thompson, contralto; Frank A. Stewart, tenor; Wm. H. Thompson, basso; John B. French, elocutionist; Charles A. White, pianist and musical director. They took with them a splendid Weber piano. They have been summering in Palmyra, but will soon take the field, and have numerous engagements ahead, including work for one month in Chicago.

Rock Prairie.

—Mrs. Bettie Cook, of Chicago, is visiting with her father, Mr. George Stone, on the Mount.

—Stacking is all done, and barley will be a heavy crop, but badly colored.

—Some have commenced cutting their tobacco. The crop is fine but grass hoppers have made havoc with the outside rows on some pieces.

—Mr. Melvin Morse and family, of Monroe, are visiting at Mr. Wauffle's.

—Mr. Fowel leaves for Texas this week Tuesday.

—Mrs. Morgan, of Idaho Territory, is here on a visit to her old home and friends; her health is not the best and she come back to consult with some skillful physician.

—The dedication dance at Mr. I. M. Wauffles was well attended and socially speaking it was the best of the season. Tuckwood furnish the music.
